A Managed return to school

Dear Parents and Caregivers

Millers Forest Public School is following the Department of Education & Communities and the Government's guidelines for a managed return to school. We are currently in Phase One as per the guidelines. Please send your child/children to school on their one designated day where possible.

Our school remains open five days per week for students who need to access school.

Students are required to bring a water bottle and their packed lunch each day they attend.

Phase Two will provide two days a week at school and three days working from home. A message with your child/children's two days per week will be sent home prior to the beginning of Phase Two. Please note that Phase Two dates have yet to be announced.

Regards

Christyne Phelps – Principal
